

**Tech Prep Agreement  
Letter of Understanding  
between  
Sinclair Community College  
and  
Name of School District**

The United States' ability to grow and prosper in a global economy depends upon a strong technical workforce. Currently, many students are graduating from high school unprepared for employment and with no commitment to continuing their education. It is crucial that the educational community develop programs that help students learn within the context of real-life experiences and develop lifelong learning competencies. This requires collaboration between secondary and post-secondary institutions with strong linkages with employers.

Sinclair Community College and the **Name of School District** have joined together to address the educational needs of the workforce with the development of a **Tech Prep Criminal Science Technology**. Tech Prep is a seamless, four-year program spanning the junior year in high school through the completion of an associate's degree. It offers a high level alternative to the traditional college prep program and a solid academic foundation based on real life applications. The planned sequence of courses minimizes duplication and provides students with an advanced skill level in their program of study.

The purpose of this agreement is to establish program requirements and procedures for a close working relationship between Sinclair Community College and **Name of School District** in order to implement a well-coordinated technical education program leading to an **Associate of Applied Science in Criminal Justice**.

Based upon the mutual concern of Sinclair Community College and the **Name of School District** for the needs of students pursuing an advanced technology degree and in an effort to provide a continuing articulated program from the junior year in high school through the associate degree, we, the undersigned, hereby subscribe to the following guidelines:

1. Upon entry into the Tech Prep program, students will be jointly admitted to Sinclair Community College.
2. Students will complete entry-level competencies during their junior and senior years and move into advanced levels of study at the community college. *The program of study for the four-year program is outlined in the attached curriculum pathway, Appendix A.*
3. Students must complete the high school portion of the curriculum with at least a "C" average.
4. The curriculum pathway details the waiver of any courses at Sinclair based on completion of the courses during the junior and senior years as part of a special

course offering by Sinclair at the high school, courses jointly taught, or completion through the high school Tech Prep curriculum.

- *Table 2* lists any courses for which credit will be articulated to Sinclair Community College based on successful completion of requirements. Student must request that the credit be posted to their Sinclair Community College transcript after completion of their high school program. Course and credit hours will be posted with a “A, B or C” (Proficiency) grade to the student’s transcript.
5. Representatives from each institution will meet annually to review and make amendments, as necessary, based on curriculum changes.

This agreement is hereby signed on \_\_\_\_\_, by:
