

MIAMI VALLEY  
**TEHPREP**  
CONSORTIUM

July 2021

Dear Career Tech Student,

As a participant in your Career Tech program, you will have the opportunity to access many benefits through the Sinclair Miami Valley Tech Prep Consortium. These benefits include the opportunity to earn college credit at no cost to you, participate in career exploration events, and earn scholarships to Sinclair. The first step to accessing these benefits is to complete the Sinclair Tech Prep Application, which is available online and to be completed at home. Upon completion, you will receive a Sinclair Tartan ID, which will officially connect you to Sinclair in order to earn college credits prior to high school graduation and scholarship opportunities after high school.

The online application requires your full legal name, social security number, present address, phone number, and citizenship status. Failure to enter the correct information will delay the process and postpone your access to college course credit and scholarship benefits. Both of these benefits are intended to help you to earn a college credential faster and at less cost to your family. We are excited for your participation in the career tech program! If you have questions about the application process or the Sinclair Miami Valley Tech Prep Consortium, please contact your career tech instructor.

Sincerely,

Laura Hinkebein, Director  
Miami Valley Tech Prep Consortium
